OLYMPIC PENINSULA

DID YOU KNOW less than 20% of Washington's inland marine shoreline is publicly owned and only about half of that has land access?

Surfrider State of the Beach (WA)
http://www.beachapedia.org/State_of_the_Beach/State_Reports/WA

Many beaches that you are welcome to explore are managed by the tribes, the county, and the state. However, access to beaches that are privately owned are granted by the permission of the private landowners. These spots are unique in both their ecological offerings and the partnership between the stewards and the visitors to these places, **THAT INCLUDES YOU.**

As a visitor to these places we ask that you abide by the rules, so that these places stay open and accessible to everyone. So if you like beachcombing, surfing, sunsets, sand and sea, help us

#PROTECTaccess.

WANT TO DO MORE? GET INVOLVED! The Olympic Peninsula Chapter of the Surfrider Foundation is located in Port Angeles, WA and serves the North Olympic Peninsula. Our mission is to promote beach access, clean water, and individual responsibility for the quality of the environment.
